Choose the game and button

Booths > FWBooth1 > Booth settings

The design is Classic wheel (v1), and the published game configuration is version 5. The daily limit is 100 spins and the red button sends Space. The staff session length is the default 12 hours.

5

Booth settings

Saved here, applied at the booth only when a version is published.

BOOTH

FWBooth1

DESIGN IN USE

Classic wheel

PUBLISHED

version 5

The booth's name, its branch, its box and whether it is in service belong to the station and are changed on Devices, with the rest of the park's stations.

LAYOUT

Classic wheel (v1)

The design the television draws the wheel with. A booth cannot be published without one.

SPINS PER DAY

100

Left empty there is no cap. With a number, the box stops the wheel for the rest of the day once that many spins have been played at this booth — counted on the box itself, shown on the tile above — and the cap reaches the box with the next published version.

STAFF SESSION LENGTH

12 (default)

hours

How long a sign-in at the booth lasts before it ends by itself — never because nobody pressed anything. Hours; left empty it is 12, at most 24. Reaches the booth with the next published version.

BUTTON KEY

Space

Read a key

What the red button sends. Never Enter — that is the badge scanner's key.

WHO MAY SPIN

Anybody

One spin per wristband

One spin per phone

Anybody who walks up to the booth. The only mode a mall booth can use.

Save settings

Check who may sign in

Booths > FWBooth1 > Booth staff

Som and Khun Anan are assigned to this booth, and both show PIN set. The Console exposes Set PIN, Generate PIN and Remove PIN. No PIN values are shown in this walkthrough.

6

Booth staff

Who may sign in at this booth, and whether each has a booth PIN. Changes reach the booth at the box's next pull — no publish needed.

Som (Reception)	S-QWT6	PIN set	Set PIN	Generate PIN	Remove PIN	Remove
Khun Anan (Owner)	S-7Y5D	PIN set	Set PIN	Generate PIN	Remove PIN	Remove

Add somebody to this booth

SEARCH

Name or phone

PERSON

— choose somebody —

Add to booth

The people of this branch: those who work here, those with a role at this branch, and the park's administrators.

Staff on this list can also sign in at the booth with their own phone and password, when their role allows it (booth:staff:sign_in): Platform admin, Operator admin, Branch manager, Reception, Staff. A role the park created itself allows it only if it carries that permission. Either way a sign-in lasts 12 hours — set under Booth settings — and does not end when nobody presses anything.

Review the seven prizes

Booths > FWBooth1 > Prizes

Seven active prizes are configured: 100, 150, 200 and 300 THB vouchers, Free Bracelet Workshop, 1+1 Kids Ticket and Kids Pizza. Their chances total 100%. Three gift prizes have no cost entered; the Console displays that warning.

7

Prizes and odds

+ Add prize

What the wheel gives away, what each one costs, and whether the odds add up.

PRIZE	CHANCE	WEIGHT	COST EACH	COST AT TODAY'S 24 SPINS
100 THB Voucher บัตรกำนัล 100 บาท · slice reads "100 ฿"	18.5%	1,850 bp	฿100	฿444 
Free Bracelet Workshop เวิร์กช็อปทำสร้อยข้อมือฟรี · slice reads "Bracelet / Workshop"	22.5%	2,250 bp	not costed	— 
150 THB Voucher บัตรกำนัล 150 บาท · slice reads "150 ฿"	17.5%	1,750 bp	฿150	฿630 
1+1 Kids Ticket บัตรเด็ก 1 แถว 1 · slice reads "1+1 Kids / Ticket"	2.5%	250 bp	not costed	— 
200 THB Voucher บัตรกำนัล 200 บาท · slice reads "200 ฿"	14.5%	1,450 bp	฿200	฿696 
Kids Pizza พิซซ่าสำหรับเด็ก · slice reads "Kids / Pizza"	14.5%	1,450 bp	not costed	— 
300 THB Voucher slice reads "300฿"	10%	1,000 bp	฿300	฿720 

7 on the wheel

● adds to 100%

10,000 bp

฿103.75 a spin

฿2,490

Chances are the weights renormalised across the prizes the box will draw from — active, under their daily cap and in stock. Caps and stock renormalise again during the day, on the box, so these are the wheel's odds as the trading day starts. 3 active prizes have no cost recorded, so the money columns understate what the wheel gives away.

Preview the wheel

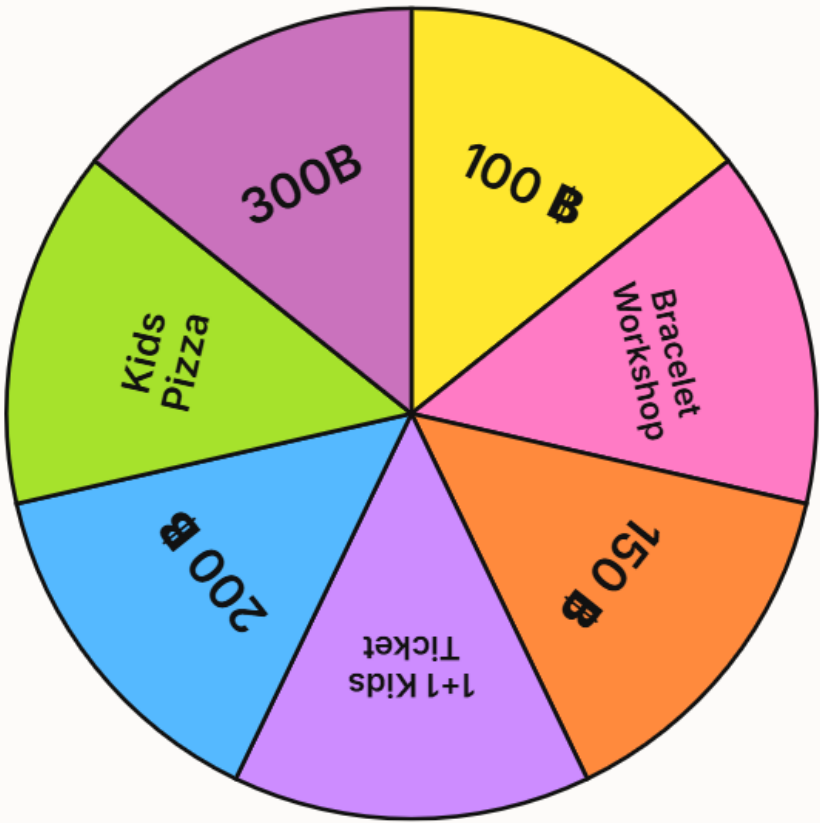

Booths > FWBooth1 > Wheel preview

This is the Console draft preview. Its seven prizes and chances match published version 5. One sort-order value for the 300 THB prize differs from the published version; it was left untouched. Equal-size wedges do not represent the winning chances.

8

Wheel preview

Slice order and colours, as the television draws them.

100 THB Voucher	18.5%
Free Bracelet Workshop	22.5%
150 THB Voucher	17.5%
1+1 Kids Ticket	2.5%
200 THB Voucher	14.5%
Kids Pizza	14.5%
300 THB Voucher	10%

Every wedge is the same width on the television — the odds decide which slice the box lands on, not how big it looks. The percentage beside each prize is its real chance.

Slices with no colour of their own take the layout’s palette. This preview draws those in a placeholder ramp: the layout’s own colours live in its design document, which this page does not read yet.

Check the published version

Booths > FWBooth1 > Version history

Version 5 is the published configuration, recorded at 22:35 on 28 September. Publishing sends a saved version to the box; the next screenshot confirms the version actually running.

9

Version history

Every wheel this booth has run. A version is frozen — the spins that happened under it still point at it, so what the odds were on a given day cannot be changed by tonight’s publish.

v5	28 Sept, 22:35	no note	53123adc
v4	28 Sept, 15:35	no note	31673159
v3	25 Sept, 02:45	"Voucher wording, 10-hour staff sign-in (bench test 25 Sept)"	dcdcff7f
v2	23 Sept, 12:18	"Spins per day set to 50 — the cap is the only change."	36546c3f
v1	21 Sept, 14:03	"Seeded launch wheel: the live booth's six prizes and their odds."	ce1872d3

Verify the live booth

Booths > FWBooth1 > What the booth is running

Published version 5 and running version 5 agree. The physical box is online and the printer is reachable with paper OK. The booth reports 24 spins today, below its daily limit of 100.

10

What this booth is running

From the box’s last heartbeat and the rows it has synced — nothing on this panel asks the booth anything.

SPINS TODAY (2026-09-28)

24 of 100 · 15 with nobody signed in

Today means the trading day (2026-09-28), which starts at the branch’s day start, not at midnight: after midnight the count and the date stay on the day before until then, while a slip is dated with the calendar day it was won.

Last spin 28 Sept, 23:12.

Inspect all 24 bench spins

Booths > FWBooth1 > Spins

For 28 September: 24 spins, 24 printed and 0 redeemed. Nine rows name a staff member; 15 earlier rows are unattributed. One earlier row is marked Clock uncertain. The three 22:57 offline-test spins are present as Printed.

11

Spins

Every recorded press for this trading day, newest first. Offline presses appear after the box syncs; simulated spins are excluded.
